## Location Map

*Location Map | Green = Active | Red = Inactive*

Are any locations missing? Click the map above to review location addresses and ensure everything is where it should be.

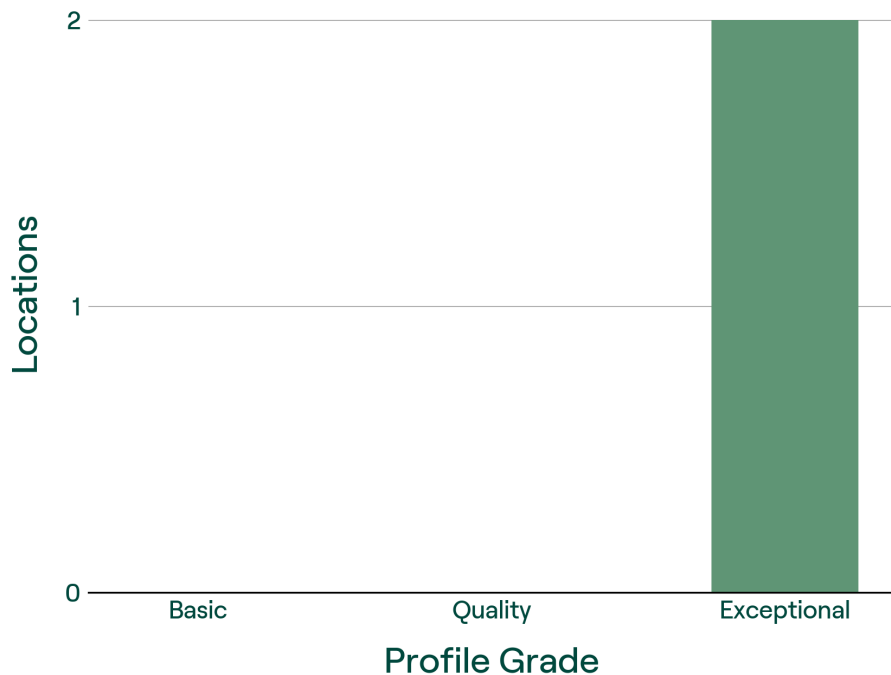

## Network Overview

Level	Active	Inactive	Total
Organization	1	0	1
Location	2	0	2
Program	17	0	17

Setting the inactive or unapproved statuses means some locations or programs won't show up on the map, which means clients won't see them. Currently, all locations in this Network will be visible **to neighbors searching for food. Click here to review these!**

# Profile Completeness

Vivory uses an internal scoring algorithm to grade a locations completeness, separating locations into three tiers (basic, quality, and exceptional). Increasing profile completeness **allows locations to access the full range of Vivory features** and assists neighbors in finding the resources they need.

*Click the graph above to view the complete list of profile grades.*

## Highest and Lowest Graded Profiles

Highest Graded			Lowest Graded		
Location	Points	Tier	Location	Points	Tier
1993	69	Exceptiona...	1992	66	Exceptiona...
1992	66	Exceptiona...	1993	69	Exceptiona...

On the right are the **location profiles with the lowest completion grades**. Consider adding more information to these locations to increase their score.

## Vivory Contact Information

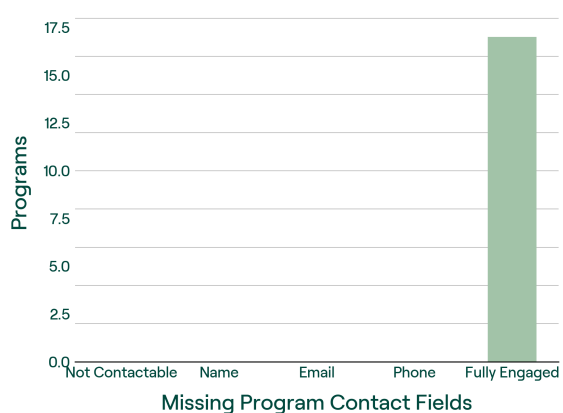

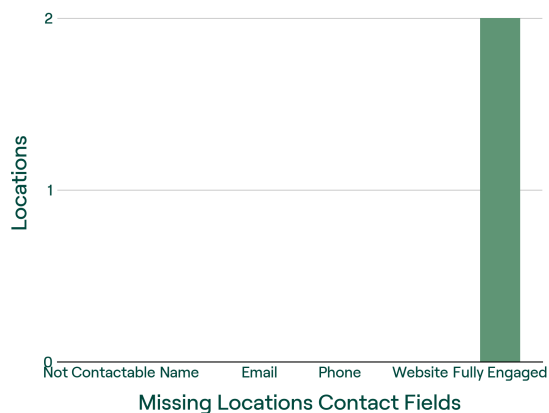

Vivory needs organization contact information to allow Organizations to claim their profiles. This isn't public information, but **pantry administrators won't be able to control their online presence** without it.

## Public Contact Information

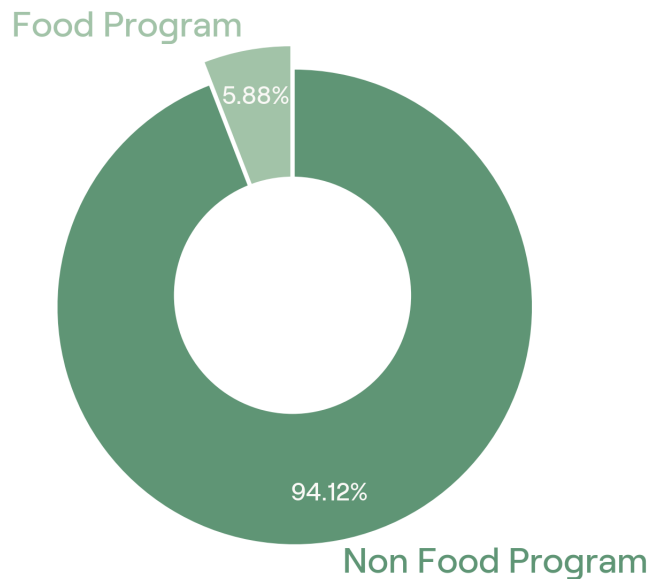

All locations and programs contain at least one piece of public contact information. Public contact information includes a name, phone number, email, and website.

### Missing Location and Program Contact Information

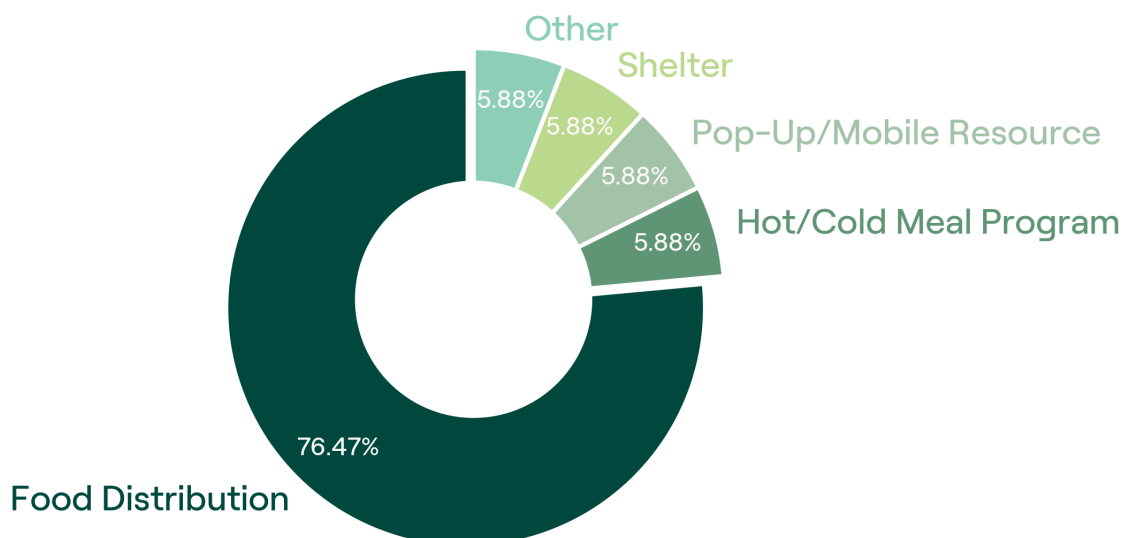

## Program Types

Below is **your Network's split between Food Programs and Non-Food Programs**. Does this graph appear to be missing some programs? To review all Programs and their Program Types, click the graph below.

The Food Program slice can be broken down further into a few food program types. The graph below states that **76.5% of your Network's programs are in food distribution**. To review these Food Programs, click the chart below.

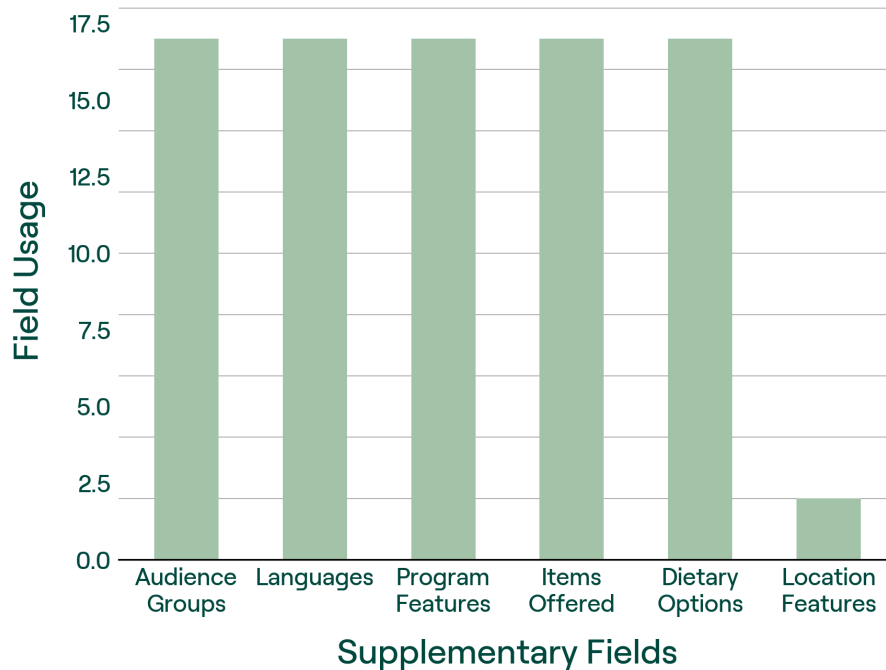

### Food Program Breakdown In Network

## Filter Fields

Many filters are available to help distinguish your Network's wide variety of programs. The graph below shows the usage for each program filter.

**Consider increasing the use of Location Features and Audience Groups** to help neighbors find programs that match their needs. Click the chart below to view all of the programs with filters.

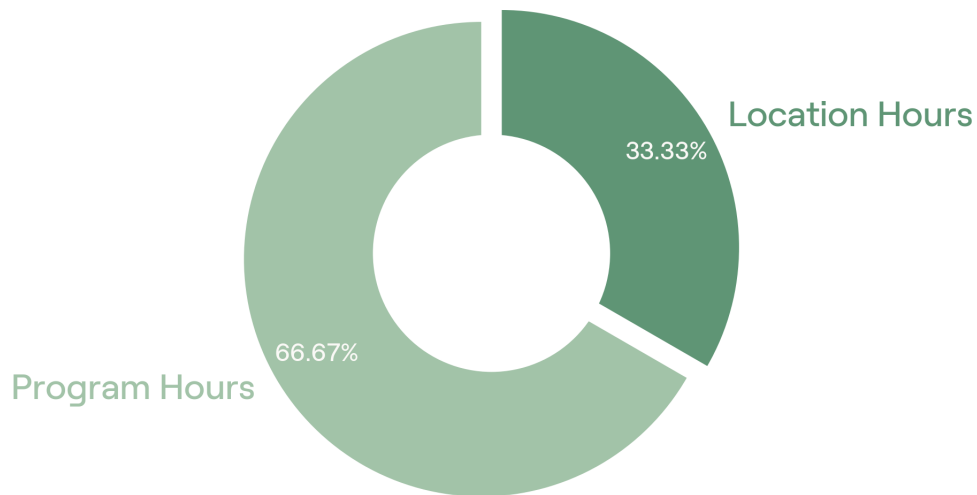

## Recommended Filter Options

Below are some of the **most common Program Filters across the Vivory Network**. Consider adding these filters to your programs to increase their distinguishability. Click [here](#) to view the full range of filters.

Audience	L. Features	P. Features	Items	Dietary
Older Adults...	Seating in W...	Grocery/Clie...	Dairy	Gluten Free
Teenagers / ...	Wheelchair A...	Home Deliver...	Eggs	Vegan
Children / Y...	Restrooms Av...	Pre-Packed B...	Meat	Vegetarian
Veterans	Parking Avai...	Prepared Foo...	Fruits & Veg...	Other
LGBTQ+	Air Conditio...	Other	Shelf-Stable...	Halal

## Network Hours Overview

The graph below shows the usage between location and program hours. Location hours describe the **hours open for the physical establishment**, while program hours represent the **hours the program is actively providing its service**.

## Network Hour Type Usage

The wide variety in frequencies between hours can be challenging to store in a database. **Vivory uses Hour Types to distinguish the different ways to represent hours to remedy this.** Below are the usages of these hour types at the location and program levels.

Hour Type	Location Usage	Program Usage
Weekly	1	0
Every Other Week	0	1
Week of Month	0	1
Day of Month	0	1

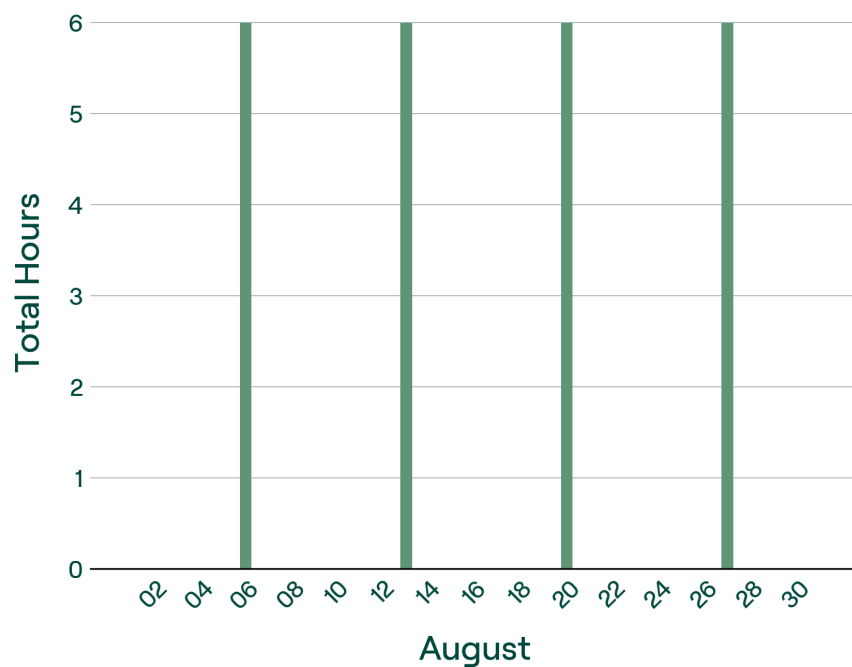

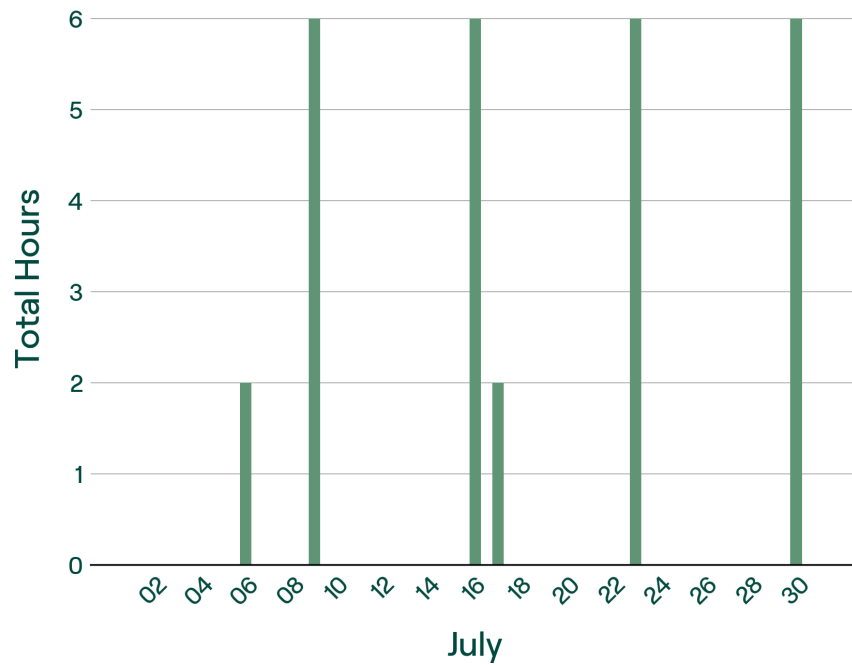

The following pages will dive deeper into the Network's location and program hours for the upcoming months.

## Location Hours Preview

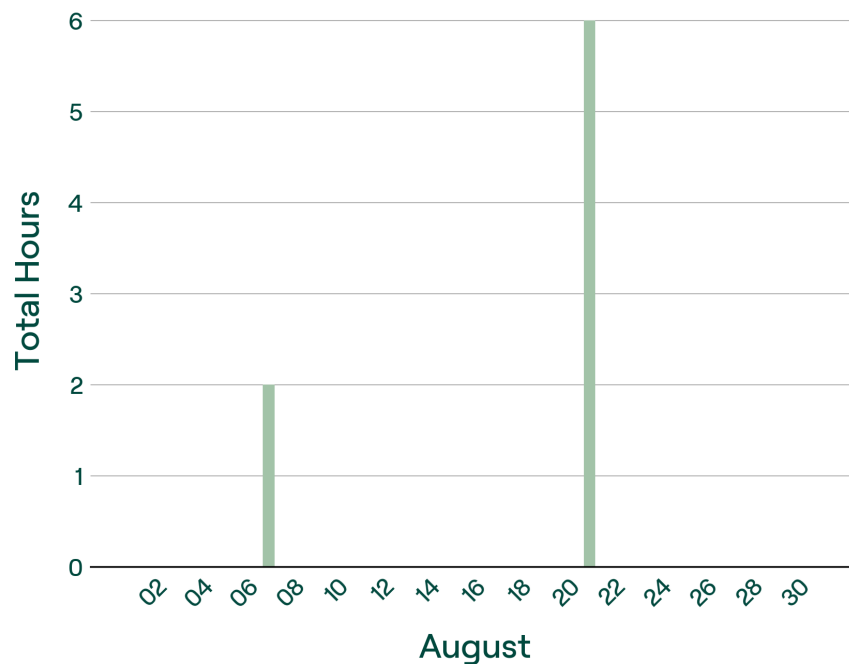

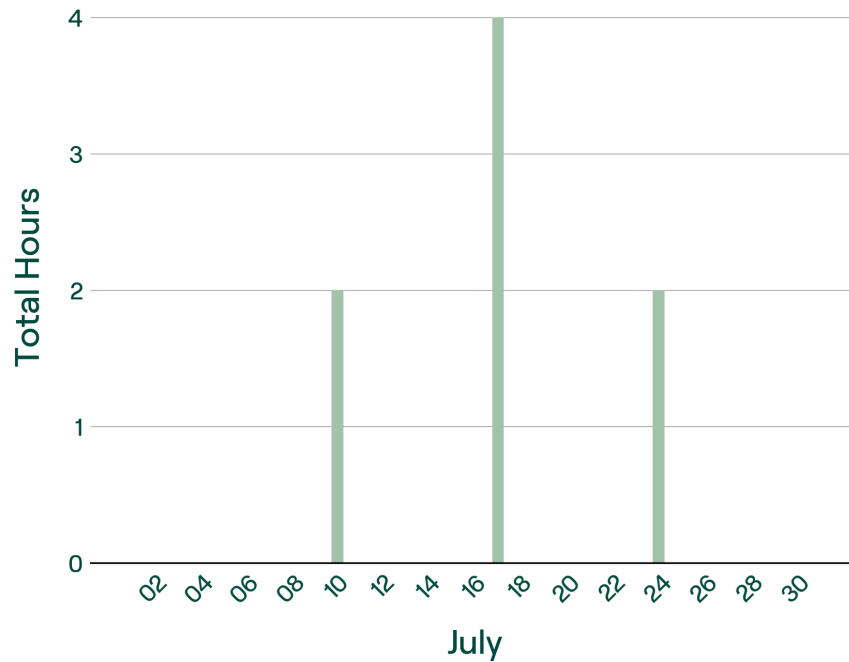

The charts below show the total hours open for all locations in **July and August**. See an anomaly in the data? To review all location hours in detail, click the graph below.

### Sample Hour Totals Per Day

# Program Hours Preview

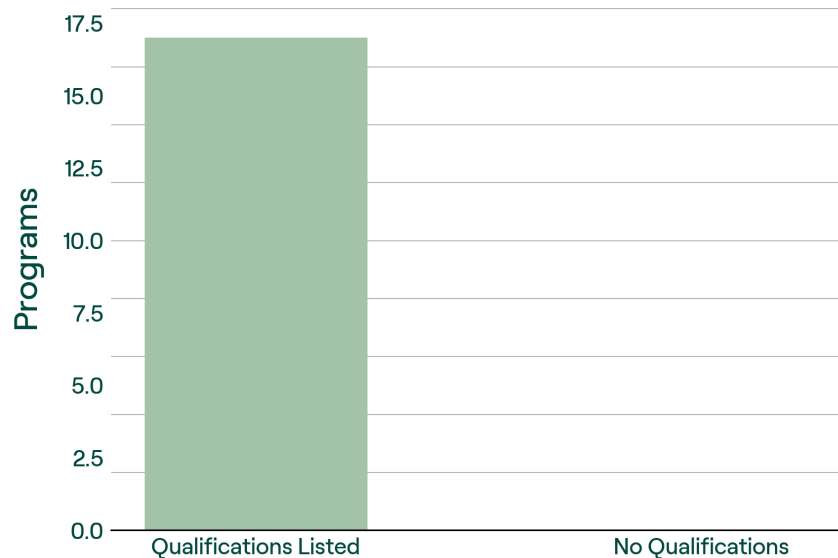

## Sample Hour Totals Per Day

Above are the **total hours for all programs in the Network**. Please ensure that these hours accurately reflect the program's operational hours by clicking the image above.

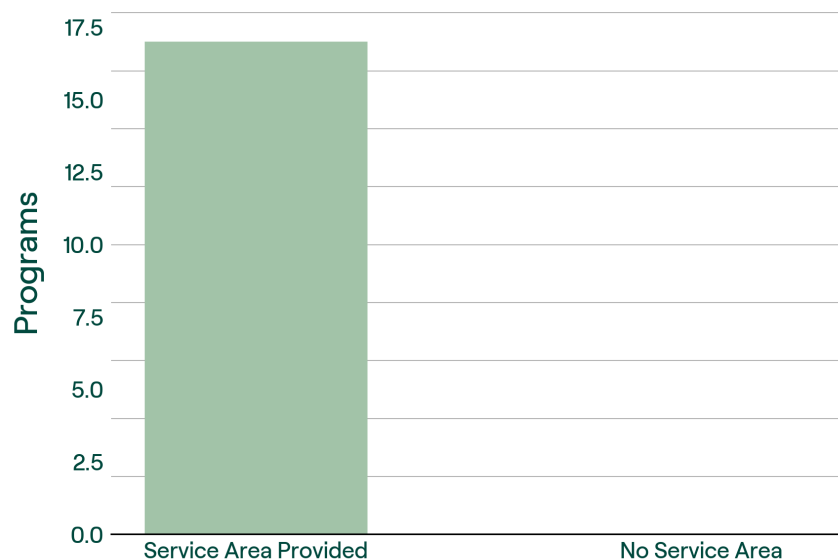

## Missing Program Qualifications

The graph below shows the usage of Program Qualifications in this Network. Program Qualifications help neighbors determine if they qualify for this program's services. To review the programs without qualifications, click the graph below.

## Missing Program Service Areas

Neighbors use Program Service Areas to determine if they are within range to qualify for the program's service. To review all program service areas, click the above image.
