January 01, 2024

Sample Network Import Summary

Table of Contents

Map of Locations

Top = Map of Network | Bottom = Map of Sample City | Green = Visible | Red = Not Visible

Locations can disable their visibility on the map, **preventing neighbors from viewing their services.** Currently, all Locations in this Network will be visible **to neighbors searching for food. Click here to review these!**

Level	Visible	Not Visible	Total
Organizations	1	0	1
Locations	2	0	2
Programs	17	0	17

Profile Completeness

Vivery uses an internal scoring algorithm to grade a Location's completeness, separating Locations into three tiers (basic, quality, and exceptional). Increasing profile completeness **allows neighbors to access the full range of Vivery features** and find the resources they need.
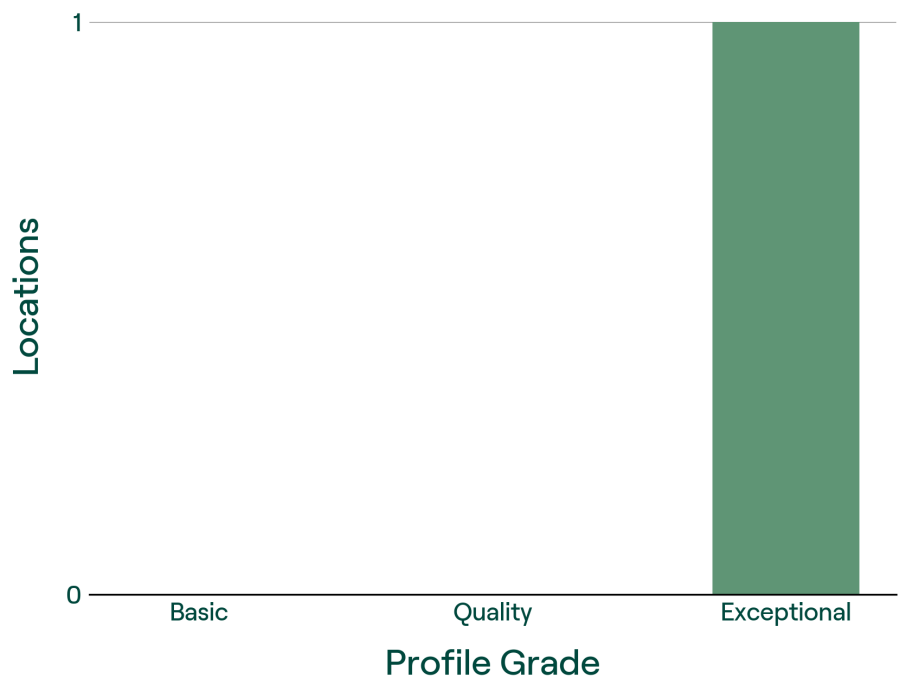

Click the graph above to view the complete list of profile grades.

Highest and Lowest Graded Profiles

Highest Graded			Lowest Graded		
Location	Points	Tier	Location	Points	Tier
Greendale ...	69	Exceptiona...	Greendale ...	69	Exceptiona...

On the right are some of the **Location profiles with the lowest completion grades**. Consider adding more information to increase their score.

Vivery Contact Information

Vivery needs Organization contact information to allow Organizations to claim their profiles. This isn't public information, but **pantry administrators won't be able to control their online presence** without it.

Missing Organization Contact Fields

Public Contact Information

All Locations and Programs contain at least one piece of public contact information. Public contact information includes a name, phone number, and email.

Missing Location and Program Contact Information

Missing Locations Contact Fields

Missing Program Contact Fields
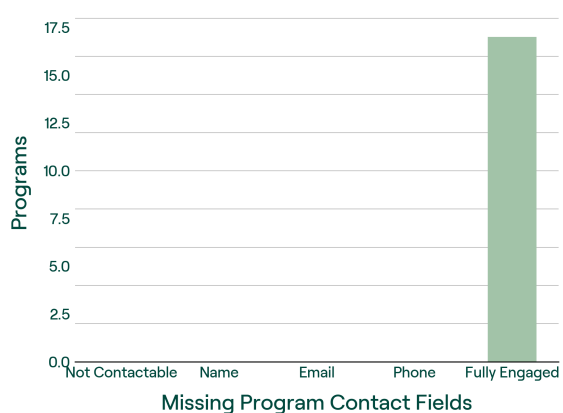

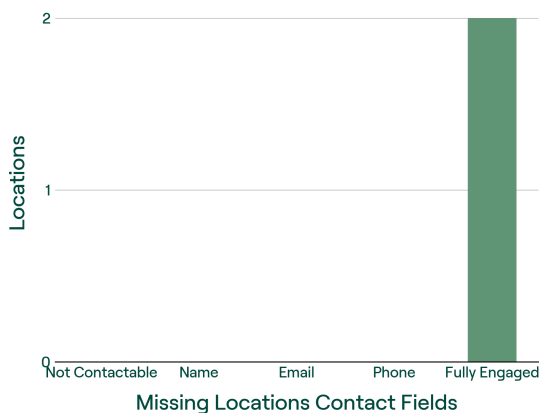

Program Types

Below is **your Network's split between Food Programs and Non-Food Programs.** Does this graph appear to be missing some Programs? To review all Programs and their Program Types, click the graph below.

Food Program

5.88%

94.12%
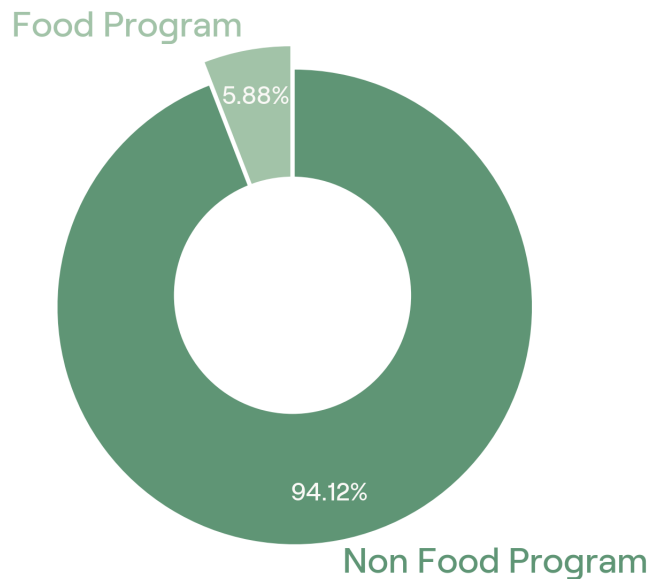

Non Food Program

The Food Program slice can be broken down further into the Food Program Types. The graph below states that **76.5% of your Network's Programs are in Food Distribution.** To review these Food Programs, click the chart below.

Filter Fields

Many filters are available to help distinguish your Network's wide variety of Programs. The graph below shows **the number of distinct Programs using each filter group.** Click the chart below to view all of the Programs with filters.
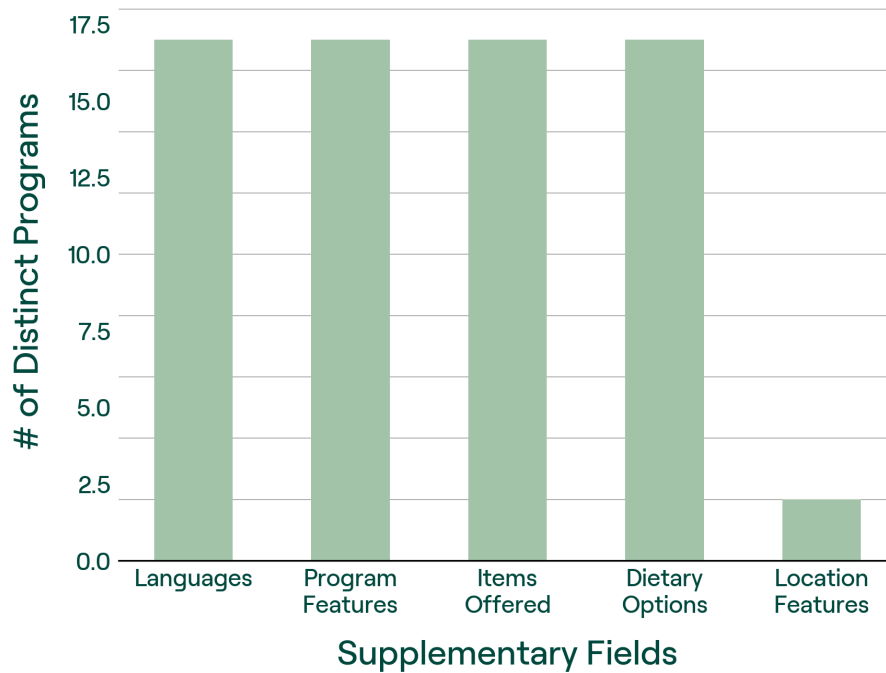

Location & Program Attributes

Vivery provides a wide range of attributes to **help Locations distinguish themselves and their programs**, allowing neighbors to get access to the resources they need. The following pages show **the percentage of Locations using each attribute** within your Network.

Sub Filter	Usage
Near Public Transportation	100.0%
Wi-Fi Available	100.0%
Dairy	100.0%
LGBTQ+	100.0%
Teenagers / Young Adults	100.0%

Network Hours Overview

The graph below shows the usage between Locations and Program hours. Locations hours describe the **hours open for the physical establishment,** while Program hours represent the **hours the Program is actively serving neighbors.**

Location Hours

33.33%

66.67%
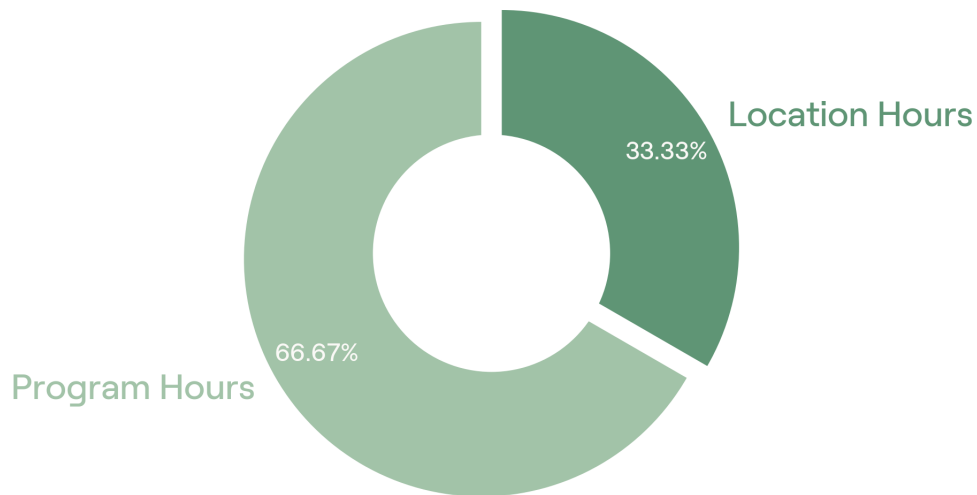

Program Hours

Network Scheduling

Vivery uses a variety of **scheduling formats** to the represent **the hours opened and closed in the Network.** Below are the usages of these scheduling formats at the Locations and Program levels.

Hour Type	Location Usage	Program Usage
Weekly	1	0
Every Other Week	0	1
Week of Month	0	1
Day of Month	0	1
Call for Information	0	0

Scroll down below to see the month to month view of the Network hours at the Location and Program level.

Location Hours Preview

The charts below show the total hours open for all Locations in **January and February**. See an anomaly in the data? To review all Locations hours in detail, click the graph below.
